Re: The July 31, 2013 meeting on achieving interoperability.

Dear Chairwoman Clyburn,

I was delighted to see the genuine leadership of the FCC at the helm navigating the industry safely away from the sirens that have lured the Commission into the dangerous waters of non-interoperability.

With your leadership the industry is now fully aware of how important interoperability is and how it affects the entire telecommunications ecosystem.
Non-interoperability has shipwrecked the A block onto an island of uncertainty.

We find it rewarding to know that the urgent maydays of small business have finally been heard and that small business is now safely on-board the SS Clyburn sailing to safe harbor.

Sincerely,

Vincent D. McBride
